Subject: RE: Please send me your weekly updates. Thanks

Hi Jane, here is my update, thanks!

***** ACB Provides Technical Support to OECA and Region 1 (B21-02).**

Results of the containers rinsates are finalized. A report was finalized and sent to the PFAS team. Preliminary results for the product samples are finalized. An extraction method for the insecticide product has been established and the optimization and validation of the method is currently underway. Additional work is being planned to understand potential impact of fluorinated containers on pesticide products. (Yan Liang 410-305-3596, David French, Yaorong Qian).

Background - The Office of Enforcement and Compliance Assurance (OECA) and EPA Region 1 are investigating sources of PFAS contamination of an insecticide product. ACB is providing technical support through analysis of polyfluorinated alkyl substances (PFAS) in the product of concern and containers used to store the product.
